email:  
June 6, 2009

**Dear Quality Control Mgr./Purchasing Mgr.:**

After a great deal of thought and prayer, and 25 years in the business of granite surface plate resurfacing /calibration I have decided to retire. I have sold the resurfacing & calibration business assets to Garber Scale & Calibration of Lancaster, PA. effective June 5, 2009.

I have selected Garber Scale & Calibration to carry on the work of resurfacing/ calibration of Granite surface plates because I feel this company has the integrity and commitment to quality that your company needs and expects and received from Exton Granite Calibration Services, Inc. these past 25 years. When my late husband Bill Pasquella and I started this company 25 years ago, " Quality, Accuracy in Measurement and Service" were our goals. I feel that Garber Scale and Calibration will carry on this mission and serve your company in the same manner.

**EGCS, Inc. Senior Surface Plate Technician Edward Thron, Jr. will stay on with Garber Scale & Calibration and he will continue to service your company's granite surface plates.** Ed will continue to give you and your company the service, accuracy in measurement and quality your Company needs according to ISO 17025, and GGG P 463 which are the industry's Standards for granite surface plate inspection. All calibration procedures, reports and service will remain the same. **I will stay on for a short while too, so that we can have a smooth transition.**

**Your company may continue to call ( 1-800 RESURFACE or 1-800 737-8732 or (215) 675 5549 or FAX ( 215) 675-7412. or by email to schedule your company's reinspection of granite surface plates.**  
**Or you may call Garber Scale & Calibration at 1-800- 427-3032.**

**However for jobs scheduled effective June 22, 2009 and beyond all purchase orders should be made out to Garber Scale & Calibration.** While I will continue to answer the phone, book the jobs and do the quotes for a period of time, all invoicing, billing for the jobs booked after June 22, 2009 will be done by Garber Scale & Calibration from the Lancaster, PA headquarters.

My sincere thanks to all of the loyal customers who supported me and EGCS, Inc. especially after the untimely death of my husband in 1992. Please know that I retire knowing that Garber Scale& Calibration will carry on the legacy of integrity, quality and service established by EGCS, Inc. I feel confident that Garber Scale & Calibration will give you and your company the respect and service that you require to stay competitive in today's market place.

Thank you again for 25 years of loyalty to EGCS, Inc. and Best wishes.  
Sincerely,

Mary Anne Whitehead  
President, Exton Granite Calibration Services, Inc.
